INDUCTORS

公TDK

Inductors for power circuits Wound ferrite VLS-EX series

VLS5045EX type

FEATURES

O Magnetic shield type wound inductor for power circuits.

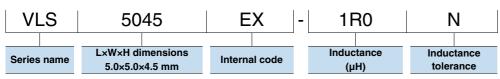

O High magnetic shield construction achieved by a ferrite magnetic material and compatible with high-density mounting.

O Larger current and lower Rdc were achieved by optimizing the ferrite core figure.

APPLICATION

○ TV, STB, gaming equipment, other AV equipment

PART NUMBER CONSTRUCTION

* Rated current: smaller value of either Isat or Itemp.

Isat: When based on the inductance change rate (30% below the initial L value)

Itemp: When based on the temperature increase (temperature increase of 40°C by self heating)

Measurement equipment

Measurement item	Product No.	Manufacturer
L	4194A	Keysight Technologies, Inc. (formerly Hewlett-Packard)
DC resistance	VP-2941A	Panasonic (formerly Matsushita Electric Industrial)
Rated current Isat	4284A+42841A+42842A	Keysight Technologies, Inc. (formerly Hewlett-Packard)

* Equivalent measurement equipment may be used.

TEMPERATURE RANGE, INDIVIDUAL WEIGHT

I	Operating temperature range*	Storage temperature range**	Individual weight
	–40 to 105 °C	–40 to 105 °C	0.46 g
3	* Operating temperature range includes self-temperature rise.		

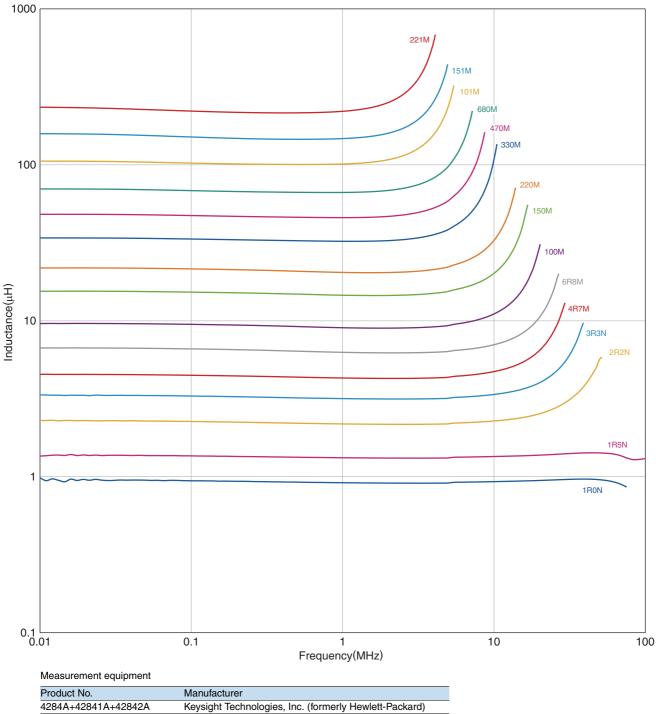

** The storage temperature range is for after the assembly.

REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using this products.

 The storage period is less than 6 months. Be sure to follow the stores. If the storage period elapses, the soldering of the terminal electrod 			
O Do not use or store in locations where there are conditions such as	-		
 Before soldering, be sure to preheat components. The preheating temperature should be set so that the temperature does not exceed 150°C. 	e difference between the solder temperature and chip temperature		
 Soldering corrections after mounting should be within the range of If overheated, a short circuit, performance deterioration, or lifespan 	-		
O When embedding a printed circuit board where a chip is mounted the overall distortion of the printed circuit board and partial distortion			
 Self heating (temperature increase) occurs when the power is tur design. 	rned ON, so the tolerance should be sufficient for the set thermal		
 Carefully lay out the coil for the circuit board design of the non-mag A malfunction may occur due to magnetic interference. 	netic shield type.		
○ Use a wrist band to discharge static electricity in your body through	the grounding wire.		
O Do not expose the products to magnets or magnetic fields.			
\bigcirc Do not use for a purpose outside of the contents regulated in the d	elivery specifications.		
 The products listed on this catalog are intended for use in general electronic equipment (AV equipment, telecommunications equipment, home appliances, amusement equipment, computer equipment, personal equipment, office equipment, measurement equipment, industrial robots) under a normal operation and use condition. The products are not designed or warranted to meet the requirements of the applications listed below, whose performance and/or quality require a more stringent level of safety or reliability, or whose failure, malfunction or trouble could cause serious damage to society, person or property. If you intend to use the products in the applications listed below or if you have special requirements exceeding the range or conditions set forth in the each catalog, please contact us. 			
 (1) Aerospace/aviation equipment (2) Transportation equipment (cars, electric trains, ships, etc.) (3) Medical equipment (4) Power-generation control equipment (5) Atomic energy-related equipment (6) Seabed equipment (7) Transportation control equipment When designing your equipment even for general-purpose application tection circuit/device or providing backup circuits in your equipment. 	 (8) Public information-processing equipment (9) Military equipment (10) Electric heating apparatus, burning equipment (11) Disaster prevention/crime prevention equipment (12) Safety equipment (13) Other applications that are not considered general-purpose applications 		

A Please be sure to request delivery specifications that provide further details on the features and specifications of the products for proper and safe use. (5/5) Please note that the contents may change without any prior notice due to reasons such as upgrading.
